"The South, 40"

by JAMES A. SMITH EXTENSION AGENT

China is the world's largest producer of swine; with four times as many swine as the U.S.

85 per cent of all U. S. feed grains shipped overseas are used for livestock feeding and not for direct human consumption. This counters the arguments that grains should not be fed livestock, but should be used to relieve human malnutrition and starvation.

It's time to reseed pastures and re-establish legumes in pastures and grass hay lots. We have a zip seeder available for your use. The best move is to use a soil test to determine lime and fertilizer needs.

Clover is the missing ingredient in many fescue and orchard grass hays. If fescue is to be harvested as hay, always use red clover. For orchard grass, red clover is not as essential. Giant white clover such as Tillman can be used. Fescue grows so rank that it forces white clover out. Red clover is more up-right and tends to stay in the stand better.

Don't overlook alfalfa-this has been one of the best alfalfa years in a decade. Water plus fertilizer makes alfalfa, so do plan to water this crop if at all possible.

Boron and pH of 6.5 to 6.8 is essential to high production. Annual top dressings of an 0,0-27 plus Boron will help keep the stand in production.

Arc is the variety that has excellent resistance to anthracnose. Those who have it seeded tell me that it's their best variety.

Now's the time to get beef cattle treated for grubs. Put an insectcide on the backline now. It's easy to wait until October and we risk pushing the Nov. 1 cut off date.

Lynchburg Feeder Cattle nominations were sent out this week. Don't overlook getting them filled out and returned by the dateline.

If you wish to nominate calves to this sale and didn't receive the forms, call or come by our office.

For the past several years we have randomly examined corn silage from many farms across the country. Each harvesting season we have attempted to point out the need for producing high quality and we continue to produce wet-low quality silage.

Over the past three years 41 samples of corn silage from Appomattox County have been analyzed. The dry matter has averaged 32.3 ands crude fiber 27.2 percent.

Our goal should be dry matter 35 - 40 percent and crude fiber 18 - 21 percent. Dry matter can be obtained by delaying harvest-it's just that simple. In the past three years, only 13 of the 41 samples have fallen within the correct levels. The lower the crude fiber, the higher the energy content. Low fiber forages will contain more net energy per pound of dry matter than will high fiber feeds. Since the intake capacity of the cow is limited, more energy can be supplied to her if she is filled up with low fiber feeds.

There are four requirements that must be satisfied for corn silage to contain its maximum feeding value.

1. Silage must have a high grain to stalk ratio.
2. Silage must be harvested at hard-dough or late dent stage of maturity.
3. Silage must be cut clean and fine to insure packing and optium intake rates.
4. Silage must be packed to exclude air pockets and silo must be sealed to prevent air leakage and mold growth.

I believe our silage producers can turn this thing around this year.

ENROLLMENT OPPORTUNITIES NOW OPEN FOR OLD DOMINION JOB CORPS

J. H. Riddel, Manager, VEC - Lynchburg has announced that all interested candidates for enrollment in the Old Dominion Job Corps, Monroe, Va. should present themselves on Thursday, August 17, 12978, 10:30 a.m.

The Virginia Employment Commission
1912 Memorial Avenue
Lynchburg, Virginia 24501

This meeting will be conducted by Garrett Phillips of the VEC and the program shall describe the requirements, for entry as well as the resident training opportunities soon to be available at the Amherst County Job Corps installation, formally known as the Father Judge Seminary.

The projected capacity of the Center will eventually house 129 females and 221 males; however, because of certain modifications yet to be finished, the initial enrollees shall be female only. About twenty (20) candidates per week shall be enrolled starting about September 1, 1978.

As the VEC screening representative for Job Corps, Mr. Phillip said " --- this program is an excellent chance for young people to learn more about this new opportunity". Following the meeting, a bus trip to tour the facilities of the Old Dominion Job Corps is planned and refreshments shall be served at the site. More information may be obtained by calling Mr. Phillips at the Virginia Employment Commission, telephone number is 528-6671, week days between 8:15 and 5:00 p.m.

Homecoming Held At Bethlehem Church

On July 30, Bethlehem United Methodist Church in Concord was honored to have Bishop W. Kenneth Goodson preach the Homecoming and Consecration Service, assisted by the District Superintendent, Rev. H. Hasbrouck Hughes, Jr. After church services, dinner was served in the church's educational building. Pictured in front of the recently remodeled sanctuary and renovated church building are (left to right): Bishop W. Kenneth Goodson; Rev. H. Hasbrouck Hughes, Jr.; Rev. Wyndham N. Gregory, pastor of the church; W. Aubrey Thomas, Chairman of the Administrative Board; and Jack D. Carroll, Chairman of the Building Committee.

Bethlehem United Methodist Church was established September 29, 1840. The first church was small and made of the simplest materials. As the congregation grew, another church was built in 1875. A vestibule and steeple were added to this building, and in 1949 Sunday School rooms were started and opened for use in January 1950. In 1962 a recreation room with kitchen facilities was constructed in the form of a basement under the Sunday School rooms. A part of the recreation room was later partitioned into additional Sunday School rooms.

In 1976 Bethlehem purchased the church next door, which was, at that time, Calvary Baptist Church. In 1977 work began to remodel the santuary of the newly purchased church and to renovate the building, with much of the work being done by the church members. The new church opened for the first service on Maundy Thursday, March 23, 1978.

From Bethlehem six young men have entered the ministry: O. L. Martin, Henry Martin, J. W. Babcock, Hugh Marshall Burleigh, James Burleigh and Steve Wingfield.

The frame church next door to the new church will now be used for a preschool for ages 3 and 4 which will open for the first time on September 5.

We praise God for the past and trust Him for the future.

Country Music Show To Be Held At Pamplin

About ten (10) country music and bluegrass bands will be featured at the Pamplin Ruritan's Country Music Show this Friday night at 7:30 p.m. Scheduled bands include the Skyliners of Lynchburg, Expressions of Concord, Traveling Company of Evergreen, Briery Creek Band from Farmville, Phillip Kitchen's Band from Dillwyn, Roger Allen's Band from Prospect, Harmony Brass from Farmville and Claude and Odessa from Amelia. These and other bands will be competing for trophies. Henry Fulcher of WFLO will be Master of Ceremonies. Judges include Joe Johnson of WTTX and Larry LeSueur of WFLO Radio.

Admission will be adults $2.00, school children $1.00 and pre-school children - Free.

Come on out to the Pamplin Community Center and enjoy a great show. There will also be a drawing for a $100.00 bill.
